Print comes to India

The printing press first came to Goa with Portuguese missionaries in the mid-sixteenth century. Jesuit priests learnt Konkani and printed several tracts. By 1674, about 50 books had been printed in the Konkani and Kanara languages. Catholic priests printed the first Tamil book in 1579 at Cochin, and in 1713 the first Malayalam book was printed by them. By 1710, Dutch Protestant missionaries had printed 32 Tamil texts, many of them translations of older works.

The English language press did not grow in India till quite late. From 1780, James Augustus Hickey edited the Bengal Gazette, a weekly magazine that claimed to be independent of colonial influence. This marked the beginning of English newspaper printing in India.

Role of Communities in Forest Conservation

In many parts of India, especially in tribal and mountainous regions, local communities depend on forests for fuel, fodder, and livelihood. Over time, people realised that uncontrolled exploitation by contractors and commercial interests was destroying forests and threatening their survival. This led to community-led conservation efforts where people actively protected forests through traditional practices and movements. Need for political parties

Political parties are easily one of the most visible institutions in a democracy. For most ordinary citizens, democracy is equal to political parties. If you travel to remote parts of our country and speak to the less educated citizens, you could come across people who may not know anything about our Constitution or about the nature of our government. But chances are that they would know something about our political parties. At the same time, this visibility does not mean popularity. Most people tend to be very critical of political parties. They tend to blame parties for all that is wrong with our democracy and our political life. Parties have become identified with social and political divisions. Therefore, it is natural to ask if we need political parties at all? About a hundred years ago, there were few countries in the world that had any political party. Now there are few that do not have parties.

SECTION A
READING SKILLS (20 marks)

1. Read the following passage. **10**

(1) Have you ever really looked at a toy store shelf and wondered what you're actually looking at? Rows upon rows of plastic products—bright, shiny, and visually appealing. We barely question them anymore. But here's a question worth asking: does the type of toy we choose really matter? The answer might surprise you. It turns out that choosing between a conventional plastic toy and an eco-friendly alternative is about far more than just grabbing something off the shelf.

(2) Let's be honest—plastic toys are everywhere. They've been the default choice for generations, and there's a reason: they're affordable, they're designed to grab attention, and they work. However, what exactly are we getting when we buy a mass-produced plastic toy? Often, we're getting something made with chemicals like BPA* and lead, substances that make manufacturing cheaper. These aren't just abstract risks floating in the background. They're real concerns that affect real people, especially children who interact with these toys daily.

(3) This is precisely why eco-friendly toys matter so much. Crafted from organic cotton, sustainable wood, and recycled materials, they ask a fundamental question: what if toys could be safe, engaging, and environmentally responsible all at once? When we choose these alternatives, we're not just buying a toy—we're making a statement about what we value.

(4) Ever noticed how a wooden block can keep a child entertained for hours, while some plastic gadget loses its appeal in minutes? There's a reason for that. Eco-friendly toys often engage children's minds differently. Natural materials offer something special—rich textures, varied tactile experiences, and a kind of sensory richness that engages the brain in deeper ways. A wooden building set doesn't just entertain; it challenges children to think, problem-solve, and create. It demands imagination in a way that pre-programmed, plastic alternatives never can.

(5) Think about the typical lifespan of a plastic toy. It breaks, it ends up in landfills, and it's replaced. Eco-friendly toys, however, are designed to survive. They're built to last years, to be passed along, to become keepsakes rather than waste. This durability speaks volumes about the difference between toys made purely for profit and toys made with purpose.

(6) Ultimately, the choice between conventional and eco-friendly toys reflects something deeper: how we think about consumption itself. Do we want a world where toys are disposable trinkets, or do we want objects that matter—that are safe, engaging, and kind to the planet? It's not just about toys. It's about the choices we make every single day and what those choices say about who we are and what kind of future we're building.

SECTION A
READING SKILLS (22 marks)

1. Read the following passage carefully: **12**

1 What does travel do to you? Do you come back home a different person? Travel could be far more than a change of scenery — it can become a spiritual experience that shakes off our usual certainties and connects us to a richer, vaster world.

2 As celebrated travel writer Pico Iyer reflects, “When you are in a foreign place, you can’t define yourself as you used to.” In unfamiliar surroundings, stripped of familiar routines and expectations, we are no longer the versions of ourselves that we know best. The landmarks that once anchored our identity fall away, and in their absence, a wider self begins to emerge.

3 This transformation is not just poetic — it’s practical. When we travel, we encounter different cultures, traditions, landscapes and belief systems. These interactions gently push us to question our assumptions and recalibrate our worldview. Such places possess a beauty and depth that move almost everyone who visits, regardless of their background or belief.

4 Indeed, many travellers discover that their journey becomes a mirror. The unfamiliar acts as a magnifying glass on the self: our prejudices, fears, joys and curiosities all come into sharper focus. Iyer suggests that in such moments, we return “a different person than the one who left home.” We become more curious, humble and open to the world’s complexity, rather than reinforcing old certainties.

5 Travel's greatest gift may be humility. When we step out of our comfort zones, we face situations that challenge our assumptions — from language barriers to unfamiliar foods, social norms and customs. This daily negotiation with difference teaches us resilience and empathy. As travellers engage with peoples whose lives have unfolded on very different cultural trajectories, they begin to weave a broader understanding of humanity.

6 But not all travel has to be far-flung to be transformative. Even within one's own country, journeys through varied landscapes — deserts, mountains, coastlines, forests — can stir a deeper appreciation for life's diversity and the interconnectedness of all people. In a world where so many people live in digital proximity yet real-world distance, travel reminds us that human experience is far broader than our immediate neighbourhood.

7 Ultimately, travel is not merely about ticking destinations off a list; it's about letting experiences shape a more expansive sense of self. Whether you walk ancient streets, witness natural wonders, share a meal with strangers, or simply watch a sunset in a place unknown, the journey invites reflection, challenges complacency, and inspires growth.

EACH ONE TEACH ONE
When Learning is Shared, it Multiplies

Learning Is Not a Competition. It Is a Responsibility.

In every classroom, there are students who quietly struggle. Some hesitate to ask questions. Some need a little more time. Some simply need someone who will sit beside them and say, “Let’s try again.”

The ‘Each One Teach One’ project begins with a simple but powerful belief — that learning grows when it is shared. Instead of competing with one another, students become partners in progress. Each volunteer chooses one learner who needs support and commits to teaching them for a few weeks. The focus may be reading, writing, mathematics, grammar, or even exam preparation.

When students teach, something remarkable happens. They revise concepts more deeply, understand ideas more clearly, and discover

Two Learners. One Journey.

The impact of this initiative is twofold. The learner gains confidence, clarity, and the courage to ask questions. The student-teacher develops patience, leadership, and empathy. In helping someone else understand, they begin to understand themselves better.

More importantly, the culture of the school begins to change. Classrooms become spaces of cooperation rather than comparison. Success is no longer measured only by marks, but by the ability to uplift others.

‘Each One Teach One’ reminds us that education is not merely about scoring well in examinations. It is about building a community where

gaps in their own knowledge. Teaching does not reduce what they know; it strengthens it. Education becomes not just a personal achievement, but a shared journey.	knowledge flows freely and no student feels left behind. One student. One learner. One meaningful difference.

	27 जून 2025 को स्पेसएक्स के फाल्कन 9 रॉकेट से लॉन्च होने के बाद, शुभांशु शुक्ला और उनकी टीम ने 18 दिन आईएसएस पर बिताए। इस दौरान, उन्होंने माइक्रोग्रैविटी में 20 से अधिक विविध प्रयोग किए | भारत ने अंतरिक्ष की यात्रा 1969 में इसरो की स्थापना से शुरू की थी | 1984 में राकेश शर्मा सोवियत अंतरिक्षयान के जरिए अंतरिक्ष में गए | राकेश शर्मा के बाद शुभांशु शुक्ला दूसरे भारतीय बने जिन्होंने अंतरिक्ष की यात्रा की, जो भारत की अंतरिक्ष यात्रा के इतिहास में एक नया अध्याय जोड़ता है। यह उपलब्धि अंतरराष्ट्रीय अंतरिक्ष समुदाय में भारत की बढ़ती साख को मजबूत करती है । अब 2025 में शुभांशु शुक्ला का आईएसएस पर पहुँचना इस बात का संकेत है कि भारत अब 'मानव अंतरिक्ष युग' में प्रवेश कर चुका है और यह भारत के हर युवा, वैज्ञानिक और नागरिक की उम्मीदों की उड़ान है | इस मिशन ने देश के लाखों बच्चों और युवाओं के मन में 'मैं' भी कर सकता हूँ की भावना जगाई है | स्रोत - विज्ञान प्रगति (मासिक पत्रिका)

	चौपालों पर नहीं, बल्कि संग्रहालयों, कला मेलों और पाँच सितारा होटलों में भी होने लगा है। आजकल साक्षरता, प्रौढ़ शिक्षा जैसे विषयों को भी कठपुतलियों के ज़रिए रोचक ढंग से पेश किया जाता है। उँगलियों के इशारे से नाचने वाली कठपुतली को इसका सबसे पुराना रूप माना जा सकता है। डोर में खिंची है तो प्रदर्शन कर रही है, इसे ढीला छोड़ दिया तो कठपुतली जिस हाल में है, बस वैसे ही थम जाती है। इसे 'कठपुतली का खेल' या 'कठपुतली का तमाशा' कहा जाता है। साभार: नंदन (सितंबर 2009)

2	निम्नलिखित अपठित गद्यांश को ध्यानपूर्वक पढ़कर उस पर आधारित दिए गए प्रश्नों के उत्तर लिखिए : रसोई के कचरे से कंपोस्ट खाद बनाने का अनूठा प्रयोग पर्यावरण के लिए एक लोकप्रिय उपक्रम बन रहा है। टेराकोटा के सुन्दर रंगबिरंगे गमले जो नफ़ीस बगीचों में रखे जा सकते हैं, रसोई आदि से निकलने वाले जैविक कचरे के लिए तैयार किए गए हैं। बंगलुरू में सफल प्रयासों की मिसाल अन्य महानगरों ने भी अपनाई। यह कचरा जो शहर में कचरे के लिए निर्धारित स्थान लैंडफिल पर फेक दिया जाता है, अब इन गमलों के माध्यम से कंपोस्ट में बदला जा सकता है। अधिकतर घरों में रोज़ आधा किलो से लेकर 2 किलो तक जैविक कचरा निकलता है। बंगलुरू जैसे शहर रोज़ करीब 3000 टन कचरा तैयार करते हैं। रसोई से निकलने वाले कचरे को हर दिन सूखे पत्तों या अखबारों से ढक कर गमले में रखा जाता है और तीन महीने से भी कम समय में यह सब कंपोस्ट खाद में बदल जाता है। माना जाता है कि कंपोस्ट सबसे बेहतर खाद है जिसमें मिट्टी को दूषित करने वाला रसायन नहीं होता। पुनर्शोधन और कंपोस्ट बनाने जैसी गतिविधियाँ भारत में अभी शुरुआती चरण में हैं परंतु इस कार्य में संलग्न पर्यावरणविदों का मानना है कि इन्हें बहुत आसान बनाना होगा। इस क्षेत्र में सफलता मिलने से उल्लेखनीय बदलाव लाया जा सकता है। तब तक के लिए एक छोटा कदम भी इस पृथ्वी को बचाने में मददगार साबित होगा। स्रोत: इंडिया टुडे	7

	हमारी फ़िल्मों की सबसे बड़ी कमज़ोरी होती है, लोक-तत्त्व का अभाव। वे जिंदगी से दूर होती हैं। यदि त्रासद स्थितियों का चित्रांकन होता है तो उन्हें ग्लोरिफ़ाई किया जाता है। दुःख का ऐसा वीभत्स रूप प्रस्तुत होता है जो दर्शकों का भावनात्मक शोषण कर सके। और 'तीसरी कसम' की यह खास बात थी कि वह दुःख को भी सहज स्थिति में, जीवन-सापेक्ष प्रस्तुत करती है। मैंने शैलेंद्र को गीतकार नहीं, कवि कहा है। वे सिनेमा की चकाचौंध के बीच रहते हुए यश और धन-लिप्सा से कोसों दूर थे। जो बात उनकी जिंदगी में थी, वही उनके गीतों में भी। उनके गीतों में सिर्फ करुणा नहीं, जूझने का संकेत भी था और वह प्रक्रिया भी मौजूद थी जिसके तहत अपनी मंजिल तक पहुँचा जाता है। व्यथा आदमी को पराजित नहीं करती, उसे आगे बढ़ने का संदेश देती है।	
I	शैलेंद्र गीतकार से अधिक कवि थे क्योंकि (A) वे शास्त्रीय छंदों में लिखते थे। (B) वे फ़िल्मी दुनिया से दूर रहते थे। (C) उनकी रचनाओं में जीवन-मूल्य पिरोए रहते थे। (D) वे केवल सामाजिक विषयों पर लिखते थे।	
II	'तीसरी कसम' को अन्य फ़िल्मों से अलग बताने का मुख्य कारण क्या है? (A) प्रसिद्ध कलाकारों द्वारा अभिनय (B) दुःख को जीवन सापेक्ष प्रस्तुत करना (C) दुःख को अत्यधिक प्रभावशाली दिखाना (D) सामाजिक समस्याओं की अनदेखी करना	
III	निम्नलिखित कथन और कारण पर विचार करते हुए उपयुक्त विकल्प चुनिए : कथन : व्यथा आदमी को पराजित नहीं करती। कारण: मनुष्य अपनी पीड़ाओं से ही सीखता है। विकल्प (A) कथन तथा कारण दोनों गलत हैं। (B) कथन गलत है लेकिन कारण सही है।
